GLQ100 single hopper desktop filling machine

Automatic Single-Head Counting Filling Machine Model GLQ100

The **Automatic Single-Head Counting Filling Machine Model GLQ100** is a versatile and efficient machine designed for filling countable raw materials in the food, pharmaceutical, and cosmetic industries. It offers numerous advantages that make it an ideal choice for small and medium-sized businesses.

Key Features:

- **Capable of filling various countable raw materials:** The machine can fill a wide range of products such as tablets, capsules, grains, and more.
- **High precision in counting the number of raw material pieces:** The machine counts the number of raw material pieces with high accuracy. This high precision ensures that the products manufactured with this machine are of high quality.
- **Adjustable filling speed:** The filling speed of this machine is adjustable and can be customized according to production needs. This flexibility allows for the production of products at various speeds.
- **Compact and lightweight:** The machine is lightweight and compact, making it easy to transport and use in various environments.
- **Affordable and high-quality:** The machine offers a good balance of quality and affordability, making it suitable for small and medium-sized businesses.

Technical Details:

- **Raw materials:** Countable materials
- **Number of funnels:** Single funnel
- **Speed:** 6-15 packs per minute
- **Machine weight:** 16 kg
- **Weight per pack:** 1-100 pieces
- **Funnel size:** 20*17 cm
- **Frequency/power/voltage:** 220/90/50
- **Accuracy:** 1 in 1000 pieces
- **Machine dimensions:** 41*36*42 cm

Conclusion:

The Automatic Single-Head Counting Filling Machine Model GLQ100 is a reliable and efficient solution for filling countable products in various industries. Its adjustable speed, high precision, and compact design make it a valuable asset for businesses of all sizes.

Recommendation:

This machine is ideal for businesses that require high-volume production with precise accuracy. It is also a suitable option for businesses looking for a cost-effective filling solution.
