

Packaging of electric sachets for dilute liquids, model X, three-sided stitching

Electric Sachet Liquid Thin Three Side Sealing Machine Model X Features:

Stainless Steel Body: The machine body is made of stainless steel, making it resistant to corrosion and rust.

12 Months Warranty: The machine comes with a 12-month warranty, indicating its high quality.

Intelligent Control Panel: The control panel is intelligently designed for easy and convenient operation.

Elegant Design: The machine features a beautiful and modern design that enhances its appeal in any setting.

Optimal Component Layout: The machine's components are well-positioned for improved efficiency and safety.

Optimized Speed: The machine can fill up to 120 sachets per minute, increasing production speed.

Easy Operation: The machine is easy to operate and requires no special knowledge.

Affordable and Quick Repairs: Repairs are quick and affordable in case of any issues.

Remarkable Accuracy: The machine can fill liquids with exceptional precision.

Reasonable Price: The machine is offered at a reasonable price, making it cost-effective for various industries.

Technical Features:

- Sealing Type: Three-side sealing
- Measurement Unit: Millimeter
- Raw Material: Thin liquids
- System: Electric
- Number of Nozzles: Single nozzle

Applications:

This machine is used for filling and packaging various thin liquids in the weight range of 1-1000 milligrams. Some of its applications include:

- Filling and packaging water and beverages
- Filling and packaging thin chemicals
- Filling and packaging fully diluted juices

Important Notes:

- Read the safety instructions before using the machine.
- Use high-quality raw materials.
- Clean and maintain the machine regularly.

Safety Precautions:

- Wear gloves and safety glasses when operating the machine.
- Prevent children from entering the machine's working area.
- If any problems occur with the machine, take it to an authorized repair center.

Maintenance:

- Clean the machine after each use.
- Use mild detergents to clean the machine.
- Lubricate the machine regularly.

Overall, the Electric Sachet Liquid Thin Three Side Sealing Machine Model X is an efficient and high-quality machine that can be used for filling and packaging various thin liquids in the weight range of 1-1000 milligrams. By following the safety precautions and proper usage instructions, you can use it effectively and with peace of mind.
