

## Table top falafel machine

The Semi-Automatic Falafel Machine Model RF is a practical and affordable machine that can help improve the quality and speed of falafel production. It is made of stainless steel and has sturdy legs that make it resistant to shaking.

### Features:

- **High production capacity:** This machine can produce 3,600 falafel patties per hour. This high production capacity can easily meet the needs of restaurants, fast food restaurants, and industrial food preparation centers.
- **All-steel body:** The body of this machine is made of stainless steel, which increases hygiene and machine life. This stainless steel body is resistant to corrosion and rust and is easily washable and disinfected.
- **Use of single-phase electricity:** This machine operates on single-phase electricity, which reduces electricity costs. This machine operates on 220-volt city electricity and does not require three-phase electricity.
- **Use of standard mold:** This machine uses a standard mold that produces uniform and high-quality falafel. The mold is made of Teflon and is easily washable.
- **Patented:** This machine has a patent, which indicates its quality and superiority over other similar machines. This machine has a patent from the Iranian Patents and Industrial Property Registration Office.

### Benefits of using the Semi-Automatic Falafel Machine Model RF:

- Production of high-quality and uniform falafel
- Increased falafel production speed
- Reduced falafel production costs
- Improved hygiene and safety of the work environment

### Applications of the Semi-Automatic Falafel Machine Model RF:

- Restaurants
- Fast food restaurants
- Industrial food preparation centers
- Falafel production workshops
- Falafel shops

### Conclusion:

The Semi-Automatic Falafel Machine Model RF is a practical and affordable machine that can help improve the quality and speed of falafel production. This machine is very useful for restaurants, fast food restaurants, and industrial food preparation centers that are looking to produce high-quality and uniform falafel.
