

## Fixed stool model N102

### Hand-held Slicer with Long Legs

By purchasing a four-legged fixed slicer (hand-held slicer with long legs), you will have a practical tool for industrial and home kitchens. With the purchase of a four-legged fixed slicer, you can slice a wide range of food products using its manual lever.

### Benefits of buying a four-legged fixed slicer:

- **Ability to slice various foods:** Buying a four-legged fixed slicer helps you slice potatoes, onions, carrots, cucumbers, bell peppers, and other vegetables.
- **Speeding up the slicing process:** By purchasing a four-legged fixed slicer, you can slice food products much faster than traditional methods.
- **Variety in slice sizes:** This device has blades in different sizes, which means that by purchasing a four-legged fixed slicer, you can prepare slices in your desired sizes.
- **No need for electricity or batteries:** This device does not require electricity or batteries to operate and can be used anywhere.
- **Easy blade replacement:** The blade of the hand-held slicer is easily replaceable.
- **Easy transportation:** The legs of the hand-held slicer are detachable, and after purchasing the four-legged fixed slicer, you can easily place it in the box.

### Safety tips for using a hand-held slicer with long legs:

- Be careful with your hands when using the device.
- Hold the potato or onion firmly on the blades and keep your hands only on the lever while working.

### Buying a four-legged fixed slicer:

To purchase a four-legged fixed slicer, simply select the Add to Cart option.

### Conclusion:

The hand-held slicer with long legs is a practical and safe tool for industrial and home kitchens that can meet a wide range of food slicing needs.
